Group Sheet

- The group sheet link

- **Please fill the sheet before 5/26 11:59 p.m.**

- Each team up to 3 students.

- You can recruit team members on the NTU Cool discussion forum.

Paper List

- Please refer to the file on NTU Cool

  - CG Term Project 2024.pptx

- If your topic is not on the list, please discuss with the professor to see if it is suitable.

Oral Presentation (Optional)

- **Date: 5/30 9:30 a.m. at R104**

- Each group has 3~7 min for oral presentations. **(Updated)**

- Participating teams have the opportunity to earn bonus points.

  - The top half of the groups will receive bonus points.

  - More points awarded to the top three.

- Please confirm on the group sheet whether you are interested in participating.

Live Demo

- **Date: 6/06 9:30 a.m. at R104**

- Total demo time: 3~5min

- The demo process is similar to the previous HW demo process.

- Please prepare your own laptop or equipment for the demo.

- **All team members MUST attend the live demo.**

Submission

- **Deadline: 6/9 11:59p.m.**

- Please submit your final package to NTU Cool

- Only one member is required to submit.

- Zip all your files and name the zip file as

  - **ICG_final_GXX.zip**

    (ex: ICG_final_G00.zip)

- Final package should include:

  - Report (PDF format), 10 pages maximum, excluding the references and appendices.

  - Source files or codes

  - README file

    - Explain how to run your program

    - Division of the work

Grading

- **Focus on live demo, the report is secondary.**

- The grading criteria include the following:

  - Completeness

  - Creativity

  - Teammates numbers

  - Bugs severity during demo

  - Recently emerged papers

Policies

- **Please make sure to accurately specify all referenced materials and code used in your report.**

- Feel free to use ChatGPT or LLM to correct grammar in the report, but do not rely on them to generate the entire report.

- If you make revisions with ChatGPT or LLM, please indicate which paragraphs were edited using these tools.
